twirled

get the look.

- °1 start with clean and dry hair.
- °2 apply day of grace to prime and dampen the hair and comb through evenly with roy.
- °3 apply mister fantastic over the top and comb through with roy.
- °4 section the hair into quarters and take small square sections. wrap hair around a small ceramic wand to set a curl and leave to cool.
- °5 continue this technique, working section by section around the entire head.
- °6 once curls are set, spritz hair with builder's paradise for a flexible hold.
- °7 break up curls to desired texture using bradford to finish.

browny locks

get the look.

- °1 start with freshly washed and damp hair.
- °2 section hair as shown.
- °3 apply shape vixen through the hair and comb through for even distribution.
- °4 apply root canal on the top of the head and anywhere through the roots for extra volume and style support.
- °5 starting at the back of the nape, take a large horizontal section and blow-dry with bruce, drying the roots first, then the ends. roll brush up to the roots and dry the midlengths for a bouncy finish.
- °6 once the back of the head is set, release the front sections and continue drying in the same manner.
- °7 when hair is dry, take large vertical sections and curl the mid-lengths with a uniform barrel wand, clip up the roots and the mid-lengths.
- °8 to polish the fringe, use a micro iron to put a bend in the fringe.
- °9 brush hair with pete to form wave and finish the look.

swirly long locks

get the look.

- °1 apply mister fantastic to the hair and dampen it down.
- °2 use pete to smooth the hair and blow-dry in the product.
- °3 starting at the nape, take a horizontal section and create a smooth waving by creating bends through the hair with a flat iron
- °4 continue this throughout the head, creating bends by turning the iron and moving through for a few seconds, then alternating the next bend.
- °5 smooth the ends with the iron to relax the wave if it feels too wavy.
- °6 to preserve your wave, plait the hair in two loose braids to hold the shape while you are working on other sections.
- °7 while the braids are in, lightly mist the hair with salty dog then release for a disheveled texture.
